

Solution to Pollution Is in the Bag!

www.ecoguardian.com

At **Eco Guardian**, our philosophy is “pure products and a clean future.” Our company is dedicated to providing ecologically responsible products for everyday use. We are committed to protecting the environment by offering products that are organic in nature — significantly reducing waste and reducing hazardous materials — to contribute to a sustainable future. Founded in 2004, we have expanded to include offices in Canada, the United States, the United Kingdom, and Ireland.

We offer a wide range of biodegradable multi-purpose shopping bags made from natural materials such as jute, canvas and bamboo. These easy-care bags come in a large selection of sizes and styles, and are sturdy enough to stand up to years of use. We also offer a wide variety of reusable bags, such as our woven and non-woven polypropylene shopping bags. Sturdier and stronger than plastic bags, they can carry up to 35 lb/16 kg and are machine washable.

Eco Guardian is proud to present our latest offering: chemical-free, compostable and biodegradable tableware. Our heat-resistant tableware offers a healthy and ecologically responsible alternative to typical polystyrene foam and plastic food service items. Made from sugar cane fibre, our packaging products are fully compostable, microwaveable, food safe and sturdy. Our biodegradable cutlery is composed of potato or corn starch and is food safe — with no emission of any harmful toxins. These products are made from 100% renewable resources, using an environmentally-friendly manufacturing process. On top of all that, our products are affordable.

Most people today are willing to work towards a cleaner, healthier environment. They seek products and companies like **Eco Guardian** that support this vision.

Eco Guardian can help your organization achieve a higher level of environmental protection with its range of pure, clean products. Together, we can create a better world for the benefit of future generations. Protect the environment and become an **Eco Guardian**.

Eco Guardian

MAKING A 'GREEN' DIFFERENCE

Establish your 'Green' image by using our eco-friendly reusable bags. At Eco Guardian we always carry a large variety of stock bags in various sizes and colours:

- Cooler and lunch bags
- Wine bottle bags
- Grocery bags (non woven polypropylene)

We can also provide customers with a large selection of customized options. Bags can be designed in a wide variety of sizes, material, printing preferences and colours:

- Woven polypropylene
- Bamboo bags
- Cotton & canvas bags
- Recycled PET resin bags
- Jute bags

Eco Guardian takes pride in dealing only with eco-friendly products and is dedicated to providing its customers with support from a focused and committed management team.

Display units and marketing material — both standard and customized — are also available.
